Codebook for Cohort 6

Inter-university Consortium for Political and Social Research P.O. Box 1248 Ann Arbor, Michigan 48106 www.icpsr.umich.edu

ICPSR PROCESSING NOTES

- 1. The Murray Research Center conducted the initial data and documentation processing for this collection, including the initial confidentiality review. ICPSR performed the following additional checks:
 - verified that respondent confidentiality was protected
 - checked for undocumented codes for categorical variables and out-ofrange values for continuous variables
 - noted inconsistencies in missing value designations.
- 2. ICPSR altered the data files from the Murray Research Center in the following ways:
 - reordered the variables so that the administrative variables (e.g., ID, wave number, cohort number, and dates) were at the beginning of each file and that the order of the other variables followed the data collection instrument
 - reformatted date and time variables to make them compatible across statistical packages
 - standardized abbreviations in variable and value labels and fixed misspellings in order to facilitate metadata searching
 - recoded character variables to numeric variables and standardized response codes across cohorts.
- 3. The Murray Research Center converted the original data collection instruments to Portable Document Format (PDF). ICPSR enhanced this PDF document by making all of the text searchable. The document is distributed as the questionnaire file for this study. Additionally, ICPSR created the following PDF documentation:
 - Data Completeness Reports summarizing the amount of missing data in each file
 - codebooks listing the metadata for each variable, as well as frequencies, summary statistics, and, in some cases, original question text
 - processing notes and appendices documenting additional information, as necessary.
- 4. To protect respondent privacy, certain identifying information is restricted from general dissemination. Specifically variable PGP4 (year when traumatic event happened) is restricted. Users interested in obtaining these data must complete a Data Transfer Agreement Form and specify the reasons for the request. A copy of the Data Transfer Agreement Form can be requested by calling 800-999-0960. The Data Transfer Agreement Form is also available as a Portable Document Format (PDF) file from the NACJD Web site at http://www.icpsr.umich.edu/NACJD/Private/private.pdf. Completed forms should be returned to: Director.

National Archive of Criminal Justice Data, Inter-university Consortium for Political and Social Research, Institute for Social Research, P.O. Box 1248, University of Michigan, Ann Arbor, MI 48106-1248, or by fax: 734-647-8200.

- 5. Users should note that the values for variables SUBID2 and BASISID2 have been reassigned from the original variables SUBID and BASISID in order to protect respondent privacy. Users interested in acquiring these data will need to request the restricted data file (see note #4).
- 6. Users should note that the codebook frequencies provided by ICPSR are from the public use files and that this version of the codebook documents both the public and restricted use data.
- 7. The following abbreviations are used in the codebook and setup files:

PC = Primary Caregiver PTSD = Post Traumatic Stress Disorder SUB = Subject TRM EV = traumatic event

Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values--Cohort 6

	ole Name and Label Cases = 579)	Percent of 0 Missi	Cases with ing Values
4.3%	3% (4 of 93 variables) have 0% Missing Values		
0.0%	6 (0 of 93 variables)	have 0% - 1% Missing Values	
0.0%	6 (0 of 93 variables)	have 1% - 3% Missing Values	
1.1%	1.1% (1 of 93 variables) have 3% - 5% Missing Values		
0.0%	6 (0 of 93 variables)	have 5% - 10% Missing Values	
0.0%	6 (0 of 93 variables)	have 10% - 20% Missing Values	
0.0%	6 (0 of 93 variables)	have 20% - 40% Missing Values	
72.0%	6 (67 of 93 variables)	have 40% - 99% Missing Values	
	BASISID2	ICPSR Wave 2 basis ID for multi-kid household	89.3%
	PGP2	traumatic event(only 1) happen more than once before year ago?	81.2%
	PGP2A	talked about traumatic events before year ago?	90.3%
	PGP2B	thought about traumatic events before year ago?	91.2%
	PGP3	traumatic events(more than 1) happen at same time?	45.8%
	PGP3A	talked about traumatic events, before year ago?	45.3%
	PGP3B	thought about traumatic events, before year ago?	54.9%
	PGP3D	often thought about traumatic event afterwards?	86.9%
	PGP3F	often thought about traumatic event afterwards?	90.0%
	PGP3_OC	traumatic event occurrence code	83.6%
	PGP3_TE	traumatic event event code	83.1%
	PGP4	year when traumatic event happened	94.0%
	PGP5A	location 1 where traumatic event happened	94.0%
	PGP6	SP afraid might die from traumatic event?	93.4%
	PGP7	how likely traumatic event could happen again?	93.8%
	PGP8_1	person 1 to whom traumatic event happened	93.6%
	PGP9_1	person 1 who perpetrated traumatic event	96.7%
	PGP10	traumatic event accidental or intentional?	96.5%

Table 1: Distribution of Variables by Percentage of Missing Values--Cohort 6

Variable Name and Label (Total Cases = 579)		of Cases with issing Values
PGP11	alone during traumatic event?	96.7%
PGP12_1	person 1 with SP during traumatic event	97.1%
PGP12_2	person 2 with SP during traumatic event	98.3%
PGP12_3	person 3 with SP during traumatic event	99.0%
PGP13	felt any people could protect?	97.4%
PGP14A	proximity of SP to traumatic event	97.9%
PGP15	felt very afraid at traumatic event?	93.8%
PGP16	felt helpless at traumatic event?	93.8%
PGP17	felt like going crazy at traumatic event?	93.8%
PGP19	unwanted thoughts about traumatic event afterwards?	92.9%
PGP19A	thought alot about traumatic event even with others?	94.8%
PGP19B	upset a lot thinking about traumatic event?	94.6%
PGP20	often play game mimicking traumatic event afterwards?	92.9%
PGP21	trouble sleeping after traumatic event?	92.9%
PGP21A	more trouble sleeping than before traumatic event?	97.9%
PGP22	had alot nightmares after traumatic event?	92.7%
PGP22A	nightmares about traumatic event?	98.6%
PGP23	ever relived traumatic event after traumatic event	93.1%
PGP24	certain things reminded of traumatic event afterwards?	93.3%
PGP24A	very upset when reminded of traumatic event?	97.1%
PGP24B	felt faint when reminded of traumatic event?	96.9%
PGP25	tried not to think about traumatic event afterwards?	92.7%
PGP26	avoided place reminding traumatic event afterwards?	92.7%
PGP27	avoided people reminding traumatic event afterwards?	92.7%
PGP28	no memory of parts of traumatic event afterwards?	92.9%
PGP29	less interested in enjoyments afterwards?	92.9%
PGP30	often felt separate from people afterwards?	92.7%
PGP31	hard to feel strongly about people, past yr?	92.7%
PGP32	stopped thinking about future afterwards?	92.7%
PGP33	lost temper a lot after traumatic event?	92.7%
PGP34	hard to concentrate after traumatic event?	92.7%
PGP34A	hard to concentrate change since traumatic event?	98.6%
PGP35	jumpy/nervous after traumatic event?	92.7%
PGP35A	jumpy/nervous change since traumatic event?	98.8%

Table 1: Distribution of Variables by Percentage of Missing Values--Cohort 6

Variable Name and Label (Total Cases = 579)		Percent of Cases with Missing Values
PGP36	jumpy at noises after traumatic event?	93.1%
PGP37	bothered by symptoms as long as a month?	97.2%
PGP37A	bothered by symptoms 2 days or longer?	98.6%
PGP37B	bothered by symptoms 3 months or longer?	97.6%
PGP38	how soon after traumatic event bothered by sympto-	ms? 97.6%
PGP39	family annoyed by worst symptoms?	97.6%
PGP40	symptoms kept SP from family activities?	97.6%
PGP41	symptoms kept SP from children activities?	97.6%
PGP42	worst symptoms cause schl/wrk prob?	97.8%
PGP43	worst symptoms annoy teacher/boss?	97.9%
PGP44	worst symptoms upset SP after traumatic event?	97.6%
PGP44A	severity of upset SP after traumatic event	98.4%
PGP45	see MD/counselor for PTSD?	97.8%
PTPLACUT	acute PTSD(lifetime) dx pos? PC report	97.6%
PTPLCHRN	chronic PTSD(lifetime) dx pos? PC report	97.6%
22.6% (21 of 93 variables)	have 100% missing values	
PGP2D	often thought about traumatic event afterwards?	99.3%
PGP5B	location 2 where traumatic event happened	99.8%
PGP5C	location 3 where traumatic event happened	100%
PGP8_2	person 2 to whom traumatic event happened	99.3%
PGP8_3	person 3 to whom traumatic event happened	99.5%
PGP8_4	person 4 to whom traumatic event happened	99.7%
PGP9_2	person 2 who perpetrated traumatic event	99.7%
PGP9_3	person 3 who perpetrated traumatic event	100%
PGP9_4	person 4 who perpetrated traumatic event	100%
PGP12_4	person 4 with SP during traumatic event	99.5%
PGP29A	less interest in enjoy change from traumatic event?	99.1%
PGP30A	separation from people change from traumatic even	t? 99.5%
PGP31A	lack of feeling change since traumatic event?	99.8%
PGP32A	lack future thought change since traumatic event?	100%
PGP33A	frequency lost temper change since traumatic event	? 99.7%
PGP36A	jumpy at noises change since traumatic event?	99.3%
PGP39A	frequency family annoyed by worst symptoms	100%
PGP40A	frequency symptoms kept SP from family activities	99.7%
